Q2 2022 Earnings Presentation

August 8, 2022
This presentation contains forward-looking statements. These statements may relate to, but are not limited to, expectations of Q3 2022 and full-year 2022 operating results or financial performance, market size and growth opportunities, the calculation of certain of our key financial and operating metrics, capital expenditures, plans for future operations, competitive position, technological capabilities, and strategic relationships, as well as assumptions relating to the foregoing. Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. In some cases, you can identify forward-looking statements by terminologies such as "may," "will," "should," "could," "expect," "plan," anticipate, "believe," "estimate," "predict," "intend," "potential," "would," "continue," "ongoing" or the negative of these terms or other comparable terminology. You should not put undue reliance on any forward-looking statements. Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved, if at all.

Forward-looking statements are based on information available at the time those statements are made and/or management's good faith beliefs and assumptions as of that time with respect to future events and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. In light of these risks and uncertainties, the forward-looking events and circumstances discussed in this presentation may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements. These risks and uncertainties include, but are not limited to, our dependency on the overall demand for advertising and the channels we rely on; our existing customers not expanding their usage of our platform, or our failure to attract new publishers and buyers; the rejection of the use of digital advertising by consumers through opt-in, opt-out or ad-blocking technologies or other means; our failure to innovate and develop new solutions that are adopted by publishers; limitations imposed on our collection, use or disclosure of data about advertisements; any failure to scale our platform infrastructure to support anticipated growth and transaction volume; macroeconomic conditions, including any instability resulting from inflation, interest rates, foreign currency exchange rates or the conflict in Ukraine; any failure to comply with laws and regulations related to data privacy, data protection, information security, and consumer protection; and our ability to manage our growth. Moreover, we operate in a competitive and rapidly changing market, and new risks may emerge from time to time. Additional information about risks and uncertainties associated with our business are disclosed in our reports filed from time to time.

In addition to financial information presented in accordance with U.S. generally accepted accounting principles ("GAAP"), this presentation includes certain non-GAAP financial measures, including adjusted EBITDA, adjusted EBITDA margin, non-GAAP net income, non-GAAP net income margin and non-GAAP diluted EPS. We believe that this information can assist investors in evaluating our operational trends, financial performance, and cash generating capacity. These non-GAAP measures are presented for supplemental informational purposes only and should not be considered a substitute for financial information presented in accordance with GAAP. These non-GAAP measures have limitations as analytical tools. For example, other companies may calculate non-GAAP metrics differently or may use other metrics to evaluate their performance, all of which could reduce the usefulness of our non-GAAP financial metrics as tools for comparison. They should not be considered in isolation or as a substitute for analysis of other GAAP financial measures. A reconciliation of these measures to the most directly comparable GAAP measures is included at the end of this presentation.

This presentation contains statistical data, estimates and forecasts that are based on independent industry publications or other publicly available information, as well as other information based on our internal sources. This information involves many assumptions and limitations, and you are cautioned not to give undue weight to these estimates. We have not independently verified the accuracy or completeness of the data contained in these industry publications and other publicly available information. Accordingly, we make no representations as to the accuracy or completeness of that data nor do we undertake to update such data after the date of this presentation.

We then calculate the revenue from the same publishers in the trailing twelve months ended June 30, 2022 ("Current Period Revenue") (including any upsells and net of contraction or attrition, but excluding revenue from new publishers. Our net dollar-based retention rate equals the Current Period Revenue divided by Prior Period Revenue.
ROBUST GROSS MARGINS

**DRivers**

High marginal profitability from structural leverage:

- Increased investments in capacity for future growth
- Scale efficiencies from continued reduction in cost of revenue per million impressions processed
- High infrastructure utilization

- Offshore R&D leverage
- Focus on profitable publishers and ad impressions
- Efficient capacity expansion to capture growth / market share
- Working capital efficiency

---

1See calculation in Appendix.

Note: Numbers rounded for presentation purposes.
We expect FY 2022 CapEx to be in the range of $33M – $36M.

Although we provide guidance for Adjusted EBITDA, a non-GAAP metric, we are not able to provide guidance for net income, the most directly comparable GAAP measure. Certain elements of the composition of GAAP net income, including stock-based compensation expenses, are not predictable, making it impractical for us to provide guidance on net income or to reconcile our Adjusted EBITDA guidance to net income without unreasonable efforts. For the same reason, we are unable to address the probable significance of the unavailable information.
Q2 2022 RESULTS UNDERSCORE STRENGTH OF OUR PLATFORM

1. Structural Advantage in Owned & Operated Infrastructure

2. Significant Growth in Digital Ad Spend Drives Addressable Market Expansion

3. Scaled, Global Omnichannel Platform Driving Consolidation on PubMatic

4. Consistently Profitable with Strong Cash Flow
